Hello!

I'm a culturally-diverse individual with strong bilingual proficiency in English & Chinese. I come from a background of translation & interpretation, but I hold a deep passion for everything tech-related!

I'm also a video editor, graphics designer, motion graphics animator and programmer.

Welcome to my world!

Who I am...

Singaporean

I come from the land of chicken rice and super strict laws.

Chongqinger

Chongqing is my second home. I spent my formative and many adult years there and can speak the dialect.

INTJ-T

I am introverted, love daydreaming, and like to approach things methodically. I also tend to overthink a lot.

What I'm good at...

Translation/Interpretation

English ↔ Chinese translator/interpreter under the constant threat of being replaced by AI.

Programming

I am proficient in **Python** and currently learning **JS/CSS/HTML.**

Video Editing

I am proficient in **Adobe Premiere Pro**, **Final Cut Pro**, and **Apple Motion.**

Graphics Design

I know how to use **Photoshop**, **Illustrator**, and **InDesign**. Currently exploring the Affinity Design Suite.
